Schedule and important instructions for interview of Contract Medical Officer at ONGC Assam Asset

1. The interviews will be conducted through online mode on Cisco Webex platform. Cisco webex works both as an application as well as through web browser and runs both on mobile phone and laptop. However, it is requested that the candidates should preferably download and use the Cisco Webex application (<https://www.webex.com/downloads.html>) on laptop as the session on phone may get disturbed due to calls.
2. Candidates should join the briefing and testing session on the respective date of interview (For example, the 28 candidates scheduled for interview on 08.11.2020 should join the session on 09.00 AM on 08.11.2020 and so on for 09.11.2020 & 10.11.2020). All the participants will be expelled after the briefing and testing session and will later be informed telephonically to join the session one by one.
3. The candidates should be available to join the session 15 minutes before and 15 minutes after their scheduled time (For example, if someone is scheduled for 10.00-10.10 AM, he/she should be available from 09.45 to 10.25 AM) as the interview slot is tentative and may vary depending on technical/network factors.
4. The link for the joining the interview session will be sent separately one day before on the email provided by the candidates during online application.
